SHRAVANI VALLALA

vallalashravani45@gmail.com | 8790837410

One year of IT experience in developing web applications in Laravel PHP. Successful in a team environment or working independently. Driven to make a positive impact on a project in any role and to meet challenges and surpass expectations. Good analytical, Programming, troubleshooting, debugging and communication skills.

EDUCATION

MCA (Master of Computer Applications) | Kakatiya University, Warangal
June 2022

- Information technology
- Computing program study focusing on Web/Software Development.

EXPERIENCE

Software Developer, Serial Experiments Emerging Technologies PVT LTD, Hyderabad, Telangana
April 2023 - June 2024

PROJECTS

- PLANTWISE

  Description

  "Led the development of a comprehensive plant management system using Laravel, encompassing CRUD operations and API creation. Implemented rigorous testing methodologies to ensure robustness and reliability of the application. Seamlessly integrated front-end interfaces with back-end functionalities, optimizing user experience. Demonstrated expertise in building scalable APIs to facilitate seamless communication between different system components. This project showcased my ability to design, develop, and test complex web applications while adhering to industry best practices".

- DSCHOOL

  Description

  "Played a pivotal role in the development of a car driving school project using Laravel, focusing on feature testing to guarantee the application's functionality and reliability. Designed and executed comprehensive test cases to validate various features, including user registration, scheduling, payment processing, and administrative functionalities. Implemented testing strategies to ensure seamless integration of new features and updates while maintaining system stability. This project highlights my proficiency in quality assurance practices and my dedication to delivering robust and user-friendly software solutions".

- LEI Registration

  Description

  "Developed RESTful APIs in Laravel to facilitate seamless CRUD operations for Lei registrations, allowing users to register legal entity identifier details effortlessly. Implemented robust testing procedures to ensure the accuracy and reliability of the registration process. The testing code comprehensively validates user input, authentication, data storage, and retrieval functionalities, ensuring the integrity of the system. This project underscores my proficiency in API development, database management, and quality assurance, demonstrating my commitment to delivering secure and efficient solutions for managing legal entity identifiers."

SKILLS

- Laravel
- JavaScript
- Git
- SQL Server
- PHP
